

Aesir Celsius

SL-ASRCEL

The Aesir Celsius is designed for lighting for extreme temperature conditions such as saunas or cold rooms.

Two options are available, either side-bend or top-bend, each with it's own design. Capable of withstanding ambient temperatures from -25° up to 100°C.

The colour choice is at peak performance, with CRI-90 & SDCM 3 as standard across a range of fixed-white CCT options to choose from.

Installation is via single bracket, fixed channel, or flexible channel.
